

# Course Outline

---

## Beginning C# 7 Programming Studio 2017

not found or type unknown

## Contents

1. Pre-Assessment
2. Exercises, Quizzes, Flashcards & Glossary
  - Number of Questions
3. Expert Instructor-Led Training
4. ADA Compliant & JAWS Compatible Platform
5. State of the Art Educator Tools
6. Award Winning Learning Platform (LMS)
7. Chapter & Lessons
  - Syllabus
  - Chapter 1: Introduction
  - Chapter 2: Introducing C#
  - Chapter 3: Writing a C# Program
  - Chapter 4: Variables and Expressions
  - Chapter 5: Flow Control
  - Chapter 6: More About Variables
  - Chapter 7: Functions
  - Chapter 8: Debugging and Error Handling
  - Chapter 9: Introducing to Object-Oriented Programming
  - Chapter 10: Defining Class
  - Chapter 11: Defining Class Members
  - Chapter 12: Collections, Comparisons, and Conversions
  - Chapter 13: Generics
  - Chapter 14: Additional C# Techniques
  - Chapter 15: Files
  - Chapter 16: XML and JSON

Chapter 17: LINQ

Chapter 18: Databases

Videos and How To

### 8. Practice Test

Here's what you get

Features

### 9. Live labs

Lab Tasks

Here's what you get

### 10. Post-Assessment

## 1. Pre-Assessment

Pre-Assessment lets you identify the areas for improvement before you start your prep. It determines what students know about a topic before it is taught and identifies areas for improvement with question assessment before beginning the course.

## 2. Quizzes

Quizzes test your knowledge on the topics of the exam when you go through the course material. There is no limit to the number of times you can attempt it.

## 3. flashcards

Flashcards are effective memory-aiding tools that help you learn complex topics easily. The flashcard will help you in memorizing definitions, terminologies, key concepts, and more. There is no limit to the number of times learners can attempt these. Flashcards help master the key concepts.

#### 4. Glossary of terms

uCertify provides detailed explanations of concepts relevant to the course through Glossary. It contains a list of frequently used terminologies along with its detailed explanation. Glossary defines the key terms.

#### 5. Expert Instructor-Led Training

uCertify uses the content from the finest publishers and only the IT industry's finest instructors. They have a minimum of 15 years real-world experience and are subject matter experts in their fields. Unlike a live class, you can study at your own pace. This creates a personal learning experience and gives you all the benefit of hands-on training with the flexibility of doing it around your schedule 24/7.

#### 6. ADA Compliant & JAWS Compatible Platform

uCertify course and labs are ADA (Americans with Disability Act) compliant. It is now more accessible to students with features such as:

- Change the font, size, and color of the content of the course
- Text-to-speech, reads the text into spoken words
- Interactive videos, how-tos videos come with transcripts and voice-over
- Interactive transcripts, each word is clickable. Students can clip a specific part of the video by clicking on a word or a portion of the text.

JAWS (Job Access with Speech) is a computer screen reader program for Microsoft Windows that reads the screen either with a text-to-speech output or by a Refreshable Braille display. Student can easily navigate uCertify course using JAWS shortcut keys.

### 7. found or type unknown **State of the Art Educator Tools**

uCertify knows the importance of instructors and provide tools to help them do their job effectively. Instructors are able to clone and customize course. Do ability grouping. Create sections. Design grade scale and grade formula. Create and schedule assessments. Educators can also move a student from self-paced to mentor-guided to instructor-led mode in three clicks.

### 8. found or type unknown **Award Winning Learning Platform (LMS)**

uCertify has developed an award winning, highly interactive yet simple to use platform. The SIIA CODiE Awards is the only peer-reviewed program to showcase business and education technology's finest products and services. Since 1986, thousands of products, services and solutions have been recognized for achieving excellence. uCertify has won CODiE awards consecutively for last 7 years:

- **2014**
  1. Best Postsecondary Learning Solution
- **2015**
  1. Best Education Solution

2. Best Virtual Learning Solution
3. Best Student Assessment Solution
4. Best Postsecondary Learning Solution
5. Best Career and Workforce Readiness Solution
6. Best Instructional Solution in Other Curriculum Areas
7. Best Corporate Learning/Workforce Development Solution

- **2016**

1. Best Virtual Learning Solution
2. Best Education Cloud-based Solution
3. Best College and Career Readiness Solution
4. Best Corporate / Workforce Learning Solution
5. Best Postsecondary Learning Content Solution
6. Best Postsecondary LMS or Learning Platform
7. Best Learning Relationship Management Solution

- **2017**

1. Best Overall Education Solution
2. Best Student Assessment Solution
3. Best Corporate/Workforce Learning Solution
4. Best Higher Education LMS or Learning Platform

- **2018**

1. Best Higher Education LMS or Learning Platform
2. Best Instructional Solution in Other Curriculum Areas
3. Best Learning Relationship Management Solution

- **2019**

1. Best Virtual Learning Solution
2. Best Content Authoring Development or Curation Solution
3. Best Higher Education Learning Management Solution (LMS)

- **2020**

1. Best College and Career Readiness Solution
2. Best Cross-Curricular Solution
3. Best Virtual Learning Solution

## 9. Chapter & Lessons

uCertify brings these textbooks to life. It is full of interactive activities that keeps the learner engaged. uCertify brings all available learning resources for a topic in one place so that the learner can efficiently learn without going to multiple places. Challenge questions are also embedded in the chapters so learners can attempt those while they are learning about that particular topic. This helps them grasp the concepts better because they can go over it again right away which improves learning.

Learners can do Flashcards, Exercises, Quizzes and Labs related to each chapter. At the end of every lesson, uCertify courses guide the learners on the path they should follow.

## Syllabus

### Chapter 1: Introduction

- Who This Course Is For
- What This Course Covers
- How This Course Is Structured
- What You Need To Use This Course
- Conventions

### Chapter 2: Introducing C#

- What is the .NET Framework?

- What is C#?
- Visual Studio 2017

### Chapter 3: Writing a C# Program

- The Visual Studio 2017 Development Environment
- Console Applications
- Desktop Applications

### Chapter 4: Variables and Expressions

- Basic C# Syntax
- Basic C# Console Application Structure
- Variables
- Expressions
- Exercises

### Chapter 5: Flow Control

- Boolean Logic
- Branching
- Looping

- Exercises

### Chapter 6: More About Variables

- Type Conversion
- Complex Variable Types
- String Manipulation
- Exercises

### Chapter 7: Functions

- Defining and Using Functions
- Variable Scope
- The Main() Function
- Struct Functions
- Overloading Functions
- Using Delegates
- Exercises

### Chapter 8: Debugging and Error Handling

- Debugging in Visual Studio

- Error Handling
- Exercises

### Chapter 9: Introducing to Object-Oriented Programming

- What is Object?Oriented Programming?
- OOP Techniques
- OOP in Desktop Applications
- Exercises

### Chapter 10: Defining Class

- Class Definitions in C#
- System.Object
- Constructors and Destructors
- OOP Tools in Visual Studio
- Class Library Projects
- Interfaces Versus Abstract Classes
- Struct Types
- Shallow Copying versus Deep Copying

- Exercises

### Chapter 11: Defining Class Members

- Member Definitions
- Additional Class Member Topics
- Interface Implementation
- Partial Class Definitions
- Partial Method Definitions
- Example Application
- The Call Hierarchy Window
- Exercises

### Chapter 12: Collections, Comparisons, and Conversions

- Collections
- Comparisons
- Conversions
- Exercises

### Chapter 13: Generics

- What are Generics?
- Using Generics
- Variance
- Exercises

### Chapter 14: Additional C# Techniques

- The :: Operator and the Global Namespace Qualifier
- Custom Exceptions
- Events
- Expanding and Using Cardlib
- Attributes
- Initializers
- Type Inference
- Anonymous Types
- Dynamic Lookup
- Advanced Method Parameters
- Lambda Expressions
- Exercises

### Chapter 15: Files

- File Classes for Input and Output
- Streams
- Monitoring the File System
- Exercises

### Chapter 16: XML and JSON

- XML Basics
- JSON Basics
- XML Schemas
- XML Document Object Model
- Converting XML to JSON
- Searching XML with XPath
- Exercises

### Chapter 17: LINQ

- LINQ to XML
- LINQ Providers

- LINQ Query Syntax
- LINQ Method Syntax
- Ordering Query Results
- Understanding the Orderby Clause
- Querying a Large Data Set
- Using Aggregate Operators
- Using the Select Distinct Query
- Ordering by Multiple Levels
- Using Group Queries
- Using Joins
- Exercises

### Chapter 18: Databases

- Using Databases
- Installing SQL Server Express
- Entity Framework
- A Code First Database
- But Where Is My Database?

- Navigating Database Relationships
- Handling Migrations
- Creating and Querying XML from an Existing Database
- Exercises

### 10. Practice Test

#### Here's what you get

**39**

PRE-ASSESSMENTS QUESTIONS

**38**

POST-ASSESSMENTS QUESTIONS

#### Features

Each question comes with detailed remediation explaining not only why an answer option is correct but also why it is incorrect.

##### Unlimited Practice

Each test can be taken unlimited number of times until the learner feels they are prepared. Learner can review the test and read detailed remediation. Detailed test history is also available.

Each test set comes with learn, test and review modes. In learn mode, learners will attempt a question and will get immediate feedback and complete remediation as they move on to the next question. In test mode, learners can take a timed test simulating the actual exam conditions. In review mode,

learners can read through one item at a time without attempting it.

### 11. Live Labs

The benefits of live-labs are:

- Exam based practical tasks
- Real equipment, absolutely no simulations
- Access to the latest industry technologies
- Available anytime, anywhere on any device
- Break and Reset functionality
- No hardware costs

## Lab Tasks

### Introducing C#

- Sandbox Visual Studio 2017

### Writing a C# Program

- Creating a Simple Console Application
- Creating a Simple Windows Application

### Variables and Expressions

- Using Simple Type Variables
- Manipulating Variables with Mathematical Operators
- Finding the largest number

### Flow Control

- Using Boolean Operators
- Using the if Statement
- Understanding operator precedence
- Using the if-else double-selection statement
- Using the switch statement
- Using the switch statement with the string
- Using the do-while Loop
- Using the while loop
- Using the while loop for printing the Fibonacci series
- Using the if-else statement within the while loop
- Understanding the do-while loop
- Using the do-while loop
- Using the for loop - Part 1
- Using the for loop - Part 2
- Obtaining the sum of even numbers using the for loop
- Using the nested for loop for printing a pattern

### More About Variables

- Implementing Type Conversion
- Using an Enumeration
- Using a Struct
- Using an Array
- Understanding one-dimensional array
- Initializing an array and using linear search
- Converting a String to an Array
- Comparing strings
- Extracting a substring from a string
- Concatenating strings
- Converting a string to lower case
- Using the Replace function
- Converting a string to upper case
- Using the trim function

### Functions

- Defining a Basic Function
- Exchanging Data with a Function
- Understanding functions - Part 1
- Understanding functions - Part 2
- Creating multiple arguments in a function
- Understanding the variable scope
- Using the delegate Keyword
- Using the delegate Keyword to Call a Function

### **Debugging and Error Handling**

- Learning the using Statement
- Handling an Exception
- Using the finally Block

### **Introducing to Object-Oriented Programming**

- Working with objects
- Understanding inheritance
- Using polymorphism
- Understanding constructor overloading
- Using Objects

### **Defining Class**

- Defining Classes
- Using access modifiers
- Learning about Classes Versus Structs

### **Defining Class Members**

- Using Fields and Properties
- Using Nested Classes

### **Collections, Comparisons, and Conversions**

- Using Collections
- Implementing an Iterator
- Using the is Operator
- Using ArrayList

### Generics

- Using a List
- Sorting a List

### Additional C# Techniques

- Implementing a Lambda Expression

### Files

- Creating a Sequential-Access Text File
- Reading Data from a Sequential-Access Text File
- Creating a Sequential-Access File Using Object Serialization

### LINQ

- Converting LINQ to XML
- Creating a LINQ Program

## Here's what you get

**69**

LIVE LABS

**36**

VIDEO TUTORIALS

### 12. Post-Assessment

After completion of the uCertify course Post-Assessments are given to students and often used in conjunction with a Pre-Assessment to measure their achievement and the effectiveness of the exam.
